

SECTION 1 - IDENTIFICATION

Product identifier/Trade name: INO BANO 5

Other means of identification:

Recommended use and restriction on use: Bathroom cleaner for tiles, tubs and bowls, ready to use

Restriction on use: For industrial, institutional and food plant use only.

Supplier identifier: INO SOLUTIONS
C.P. 1932, MONTRÉAL, QC
1.888.ino.solu (466-7658)

Emergency phone number: (613) 996-6666 (CANUTEC)

SECTION 2 - HAZARDS IDENTIFICATION

2a WHMIS 2015 - GHS (Globally Harmonized System) classification

This product is not classified.

2b Label elements

None

Precautionary statement

None as per GHS

Signal word:

None as per GHS

Hazard statement

None as per GHS

SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

Ingredients	CAS #	% (weight)	GHS CLASSIFICATION
Ethoxylated alcohol	68991-48-0	1-5	Eye irritation, category 2
Citric acid	77-92-9	3-7	Eye irritation, category 2; Skin irritation, category 2

The actual concentrations are withheld as a trade secret.

SECTION 4 - FIRST AID MEASURES

4a Description of first aid measures

Eye contact:

Flush or rinse eyes with water after contact. If eye irritation persists, get medical advice.

Skin contact:

Rinse thoroughly with water. If irritation occurs, get medical advice.

Inhalation:

No effect expected.

Ingestion:

Rinse mouth with water. Never give anything by mouth if the person is unconscious.

4b Most important symptoms and effects

Eye: May cause irritation, redness, tears, burning sensation.

Skin: May cause irritation.

Inhalation: No effect expected.

Ingestion: May cause slight irritation, headache, abdominal pain, diarrhoea, nausea and vomiting.

4c Immediate medical attention and special treatment needed.

No special treatment

SECTION 5 - FIRE FIGHTING MEASURES

5a Extinguishing media

Suitable extinguishing media:

Water (if possible, avoid powerful sprays), foam, dry chemicals, carbon dioxide. Product itself is not flammable.

Unsuitable extinguishing media:

None known.

Specific hazards for product

Hazardous combustion products:

Oxides of carbon, nitrogen and other irritating gases.

Special protective equipment and precautions for firefighters

Special fire-fighting procedures/equipment:

During a fire, irritating smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

6a Personal precautions, protective equipment and emergency procedures

Personal protection:

Avoid contact with eyes. Use adequate aeration and ventilation. Floor will be slippery in case of a spill. Use

appropriate personal protection equipment (see section 8)

6b Methods and materials for containment and cleaning:

Stop the leak. For large spills, pump the product into drums or clean up spills using absorbent material. Resume cleaning by rinsing with water. Caution: floors will be slippery.

6c Environmental precautions:

Product is biodegradable. Do not let large quantities go to the sewers.

SECTION 7 - HANDLING AND STORAGE

7a Precautions for Safe handling:

Avoid contact with eyes. When used as directed, no special precautions.

7b Condition for safe storage:

Store in a sealed container in a well-ventilated place. Do not store with food products. Keep from freezing.

7c Special packaging materials: none.

No incompatibility with most materials found in most workplaces.

SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

8a Control parameters

	Ontario Time-weighted Average Limit (TWA)	Ontario Short-Term Exposure Limit (STEL)	Notations
Ethoxylated alcohol	None established	None established	
Citric acid	None established	None established	

8b Engineering controls:

Not required under normal applications.

8c Individual protection measures

Respiratory Protection:

Not required under normal applications.

Skin protection and other protective equipment:

In case of possible contact, wear rubber gloves. Waterproof boots for large spills.

Eye / face protection:

Not required under normal applications. In case of possible contact, wear safety glasses

General hygiene considerations:

KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes. Never eat, drink, or smoke in work areas.

Good hygiene is recommended after use of this product.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance and odour:

Viscous green liquid with a fresh scent

Odour threshold:

N/Av

pH :

Approximately 2.2

Melting point and freezing point:

Approximately 0 °C

Boiling point:

Approximately 100 °C

Flash point:

None to boil

Evaporation rate (n-BuAc =1):

Approximately 0.4 (water)

Lower flammable limit (% by volume):

N/Av

Upper flammable limit (% by volume):

N/Av.

Explosion data - Sensitivity to mechanical impact:

Not sensitive

Explosion data - Sensitivity to static discharge:

Not sensitive

Vapour pressure (mm Hg)

Approximately 20 (water)

Vapour density:

Approximately 0.6 (water)

Specific gravity or density (water = 1 at 4 °C):

1.03 g/cm³@ 20 °C

Solubility in water:

Miscible

Partition coefficient – n-octanol/water:

Not available

Auto-ignition temperature: Not available
Decomposition temperature Not available
Viscosity: 400-700 cps @ 25 °C

SECTION 10 - STABILITY AND REACTIVITY

10a Reactivity:

Not applicable when used as directed.

10b Chemical stability:

Stable at room temperature, in normal handling and storage conditions.

10c Possibility of hazardous reactions:

May react with strong alkalis and strong oxidizers.

10d Conditions to avoid:

Avoid contact with strong alkalis and strong oxidizers.

10e Incompatible materials

Strong alkalis and strong oxidizers.

10f Hazardous decomposition products:

With strong acids: heat, water vapour. With strong oxidizers: carbon and nitrogen oxides.

SECTION 11 - TOXICOLOGICAL INFORMATION

Primary entry route(s): Eye and ingestion.

Eye: May cause irritation, redness, tears, burning sensation.

Skin: May cause irritation.

Inhalation: No effect expected.

Ingestion: May cause slight irritation, headache, abdominal pain, diarrhoea, nausea and vomiting.

Carcinogenicity:

No ingredient listed by IARC as a possible carcinogen.

Teratogenicity, mutagenicity, other reproductive effects:

Mutagenic tests have been negative for ingredients

Skin sensitization:

Ingredients not sensitizing as per OECD 406

Respiratory tract sensitization:

Not available

Synergistic materials:

Not available

Other important hazards:

Not available

Toxicological data: The calculated LD₅₀ for this product is greater than 10,000 mg/Kg, oral, rat; our products are not tested on animals.

Ingredient	LD ₅₀ (route, species)	LC ₅₀ # hours (species)
Ethoxylated alcohol	>2,000 mg/kg (oral, rat)	N/Av
	>2,000 mg/kg (dermal, rabbit)	N/Av
Citric acid	8,000 mg/kg (oral, rat)	N/Av

For more details, refer to Section 3.

SECTION 12 - ECOLOGICAL INFORMATION

12a Ecotoxicity :

TOXICITY (Fish)	Results	Exposure time	Method
Ethoxylated alcohol	70.1 mg/kg	48H	Not available
Citric acid	Fish: 600-800 mg/L	96H	Not available

TOXICITY (Daphnia)	Results	Exposure time	Method
Ethoxylated alcohol	5.3 mg/L	48H	Not available
Citric acid	600-800 mg/L	48H	Not available

TOXICITY (Algae)	Results	Exposure time	Method
Ethoxylated alcohol	NOT AVAILABLE		
Citric acid	N. seminulum: EC50 12,000 mg/L	96H	Not available

12b Persistence and degradability: Product is expected to be readily biodegradable as per OECD 301.

12c Bioaccumulation potential: Not bio accumulating.

12d Mobility in soil: There is no test data on this product.

12e Other adverse effect No applicable information found

SECTION 13 - DISPOSAL CONSIDERATIONS

Eliminate according to federal, provincial, and local regulations.

SECTION 14 - TRANSPORTATION INFORMATION

Transportation of Dangerous Goods (TDG) in Canada:

Not regulated

UN number Not applicable

Proper shipping name: Not applicable

Class: Not applicable

Identification number: Not applicable

Packing group: Not applicable

Special case: Not applicable

SECTION 15 - REGULATORY INFORMATION

In Canada

WHMIS information:

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and this safety data sheet (SDS) contains all the information required by the HPR.

WHMIS 2015

Classification: See section 2a

CEPA information: Ingredients are listed on the DSL inventory.

SECTION 16 - OTHER INFORMATION

Date of latest revision 2017-11-02
