INO shape

950 ml Bottles with Dispensing Mechanism

The INO shape line of products of the INO derm family encompasses three distinct foaming hand soaps. The systems includes practical 950 ml bottles that come with an integrated dispensing mechanism. These bottles can be placed anywhere where soap is required, on counters or on the wall with the help of an easy to install wall support.

The three kinds of foaming hand soap are the same as three INO foam soaps but in a different packaging.

INO-69078 and	**Foaming hand soap with aloe vitamin E**
