INO-DE9943B / INO-DE9943G
FOAM SOAP DISPENSING SYSTEM.

INO-DE9943B / INO-DE9943G

VALUE ADDED

- 100% leak-proof mechanism.
- Ideal for the disabled.
- Window shows amount left in dispenser.
- Unique push pad pressure system.
- Provides 1,333 hand washings per 1,000ml bag compared to 666 for most similar systems.
- Compatible with all five INO foam products.
- Comes with interchangeable labels to identify the product inside.

APPLICATIONS

- Bathrooms
- Restaurants
- Restrooms
- Kitchens
- Dressing rooms
- Hospitals

From the clean contemporary lines of the dispenser to the unique push pad placement and rich luxurious foam soap, INO foam is the “easy” solution for every hand soap need. It features a large, easy-to-use push pad located at the top rather than the bottom of the dispenser. The push pad placement lets users see the amount of product being dispensed into their hand, thus reducing waste caused by over-dispensing.

The dispenser is ideal for the disabled, requiring one hand and less than 5 lbs. of pressure to dispense product. With 0.75mL of rich foam per push vs. 1.5mL for most bag-in-box liquid systems, the INO Foam system will provide twice the number of hand washings per 1,000ml bag.

The INO foam dispensers can be used wherever people wash their hands.

SPECIFICATIONS

Activation	Unique push pad delivers 0.75ml per push
Appearance	INO-9943G=Grey INO-9943B=Black
Leakage	Leak-proof mechanism
Locking	Optional
