INO gloss 14 is a concentrated neutral cleaner that equals the performance of a general purpose cleaner without alkalinity or solvents. It is neutral so it won't dull the shine of the floor finish. Designed for use on most floor types, along with other washable surfaces, including ceramic, chrome and porcelain, it removes most types of particulate and oily soils, leaving a fresh citrus scent. It does not require rinsing on non-food contact surfaces and can be used in buckets, spray bottles or in automatic scrubbing machines because this concentrated neutral cleaner is a low foaming product.
