

Bloc-UR

Bloc-UR is a biotechnological and readily biodegradable product containing enzymes and bacteria, which have been specifically selected to accelerate the decomposition of organic matter thereby preventing the production of foul odours.

Bloc-UR is easy to use. Just add a new block in each urinal as needed.

Bloc-UR is used and recommended for public urinals as well as closed washrooms to fight unpleasant odours. It leaves a long-lasting fragrance.

For best results, clean urinals, drains, and pipes, before using **Bloc-UR**.

Characteristics:

Form:	50 gram bloc
Colour:	blue
Fragrance:	citrus
Content:	bacteria, enzymes, citric acid and surfactants.

Bloc-UR is safe for the user. Does not contain paradichlorobenzene, caustic or corrosive products, it is environmentally friendly. It does not damage the ceramics, metals and plastics. **Bloc-UR** is **EcoLogo certified** and **Tested in laboratory**. It is environmentally friendly

BENEFITS

- Effectively eliminates unpleasant odours
- Leaves washrooms with a pleasant fragrance
- Is user friendly and harmless to plastics and metals
- Easy to use
- A better alternative to chemical products
- Environmentally certified and Tested in laboratory
