

HANDHELD ELECTROSTATIC DISINFECTANT SPRAYER

Pax-100

Use the innovative PAX-100 handheld electrostatic sprayer to apply disinfectants - with more coverage, less waste, and better results!

SAFE

Use any water-soluble disinfectant authorized by Health Canada with the PAX-100! You have the flexibility of choosing the right water-soluble disinfectant product based on your application and keep your environment safe from bacteria and viruses.

SECURE

The electrostatic charging technology behind the PAX-100 is decades old and used in various industries, including agriculture and painting. The technology has proven itself to be the most effective and secure method of application of disinfectants in existence today.

SENSIBLE

With the PAX-100, you get maximum coverage on high touch areas, control the spread of infections and reduce your consumption of disinfectant. We're proud to say that the PAX-100 is the most affordable handheld electrostatic disinfectant sprayer on the market.

Pax-100

COVERAGE

The PAX-100 Handheld Electrostatic Sprayer covers up to 6,000 square feet with a single 600 ml tank.

CHOICE

Use any disinfectant fluid approved by Health Canada with the PAX-100 handheld sprayer. The disinfectant needs to be water-soluble.

SPEED

Disinfect an average sized entire room with PAX-100 handheld electrostatic sprayer in under 60 seconds.

SAVINGS IN DISINFECTANTS

You will save up to 80% on disinfectant costs because the PAX-100 electrostatic handheld sprayer dispenses the most efficient amount of disinfectant in a given application period.

EXTENDED RUNTIME

You will cover more surfaces with the least amount of interruptions because the PAX-100 battery has the run-time of 8 hours per charge.

MADE IN CANADA

The PAX-100 handheld electrostatic sprayer is proudly designed, engineered and manufactured in Canada.
